DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see amendment, filed 2/4/2005, with respect to claims 24-26, 28 & 29 have been fully considered and are persuasive. The previous rejection is withdrawn.

Allowable Subject Matter

2. Claims 24-26, 28 & 29 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 25, the prior art of record fails to teach or fairly suggest the combination of all limitations required in claim 25 for a lens device that includes "...*wherein said first format and said second format differ by at least one of position voltage, reference voltage, voltage width, and polarity, and wherein said lens device is attached to one of the cameras, and said lens control signal is received from the attached camera, wherein the first data format and the second data format use analog signals, and wherein the camera interface board is detachably attached to the lens circuit board.*"

Regarding claim 29, the prior art of record fails to teach or fairly suggest the combination of all limitations required in claim 29 for a lens device that includes "...*wherein the camera interface board is detachably attached to the lens control circuit board, wherein the camera interface board performs: receiving, via the analog link, an analog lens control signal from the*

camera; converting, in accordance with a camera manufacturer code signal, the lens control signal into a signal understandable by the lens control circuit board; and providing, to the lens control circuit board via the single serial digital link, the signal understandable by the lens control circuit board.”

Regarding claim 24, this claim is allowed for the same reasons provided in claim 29.

Regarding claim 26, this claim is dependent of claim 29.

Regarding claim 28, this claim is dependent of claim 25.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
